

20438 to 20440—Continued.**20439. PHEUM PRATENSE.****Timothy.***Scotch.***20440. FESTUCA PRATENSIS.****Meadow fescue.***Danish.***20447. DOLICHOS LABLAB.****Hyacinth bean.**

From Paris, France. Received through Vilmorin-Andrieux & Co., March 25, 1907.

Stringless variety.

20450. XANTHOSOMA sp.**Yautia.**

From the Isle of Pines. Presented by Dr. S. W. Mellott, of Santa Fe. Received March 26, 1907.

"Roots of what is said to be the best variety of yautia grown in the Isle of Pines. This lot is from an English colony from Cayman Island, now settled on the south coast of the Isle of Pines." (*Mellott.*)

20451. XANTHOSOMA sp.**Yautia.**

From Victoria, Tamaulipas, Mexico. Presented by Dr. Edward Palmer. Received March 25, 1907.

"A very common plant here; it gets into the water ditches and is as hard to get rid of as Johnson grass; it is called *Rejolgar* and no use is made of it here." (*Palmer.*)

20453. AGAVE sp.**Zapupe.**

From Victoria, Tamaulipas, Mexico. Received through Mr. Bernardo Zedilla, March 27, 1907.

Bulbils.

20454. SCIRPUS sp.**Rush.**

From Caldas da Rainha, Portugal. Received through Mr. David Fairchild, March 27, 1907.

"(No. 020.) Seed of a rush called the wild rush, which, though longer and even taller at times than the slender variety (see S. P. I. No. 19998), is brittle and not used for tying the vines or for mat making." (*Fairchild.*)

20458 to 20483.

From Svalöf, Sweden. Received through the Allmänna Svenska Utsädesaktiebolaget, March 22, 1907.

20458. AVENA SATIVA.**Oat.***Svalöfs Hvillinghafre* (White oats).**20459. AVENA SATIVA.****Oat.***Svalöfs Ligowohafre* (Ligowo oats).**20460. AVENA SATIVA.****Oat.***Svalöfs Guldregnshafre* (Golden Rain oats).**20461. AVENA SATIVA.****Oat.***Svalöfs Borstlösa Propsteierhafre* (awnless Propsteier oats.)**20462. AVENA SATIVA.****Oat.***Svalöfs Hvita Propsteierhafre* (White Propsteier oats).**20463. AVENA SATIVA.****Oat.***Svalöfs Svarta Klockhafre* (Black Bell oats).
